

PUBLIC STATEMENT OF MAYUMI HASEGAWA

MS. HASEGAWA: Hi. I didn't prepare for anything today, tonight. I just am interested in this public hearing because I'm working on the nuclear waste for journalism class last year, and I think I am the only Japanese here in this public hearing.

As I am Japanese, we had an experience of the nuclear bomb to us, and I have heard of a lot of tragedy, how bad the experience was. But I didn't have any relatives or friends who were affected by the nuclear waste -- I mean nuclear -- how do you say?

MR. LAWSON: Explosion?

1 MS. HASEGAWA: [Disposal. But I think definitely this is not good for Nevada or the United States because I know this is not good for human beings. I am not American citizen, but I oppose the proposal.] That's it. Thank you.

MR. LAWSON: Thank you very much.
